

## *How is my health plan handling benefits and member costs for COVID-19 tests and related visits?*

In an effort to reduce the spread of COVID-19, and in response to state and federal directives, local and national health insurers are changing their policies and waiving most member cost-sharing and providing expanded access and benefits for covered testing and treatment of COVID-19. These measures may include benefits such as:

- Waiving co-pays, co-insurance and deductibles for medically necessary COVID-19 testing
- Increasing access to telehealth options
- Relaxing pre-authorization and referral rules, and
- Allowing early refills for prescription drugs
